Commissioner Kevin

Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116,
98-170 and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

To whom it may concern:

I Bought a prepaid cellular phone because my family household is on a fixed income an we can't afford regular cellular service. We have prepaid service in case we need to get in touch with each other in case my grandpa has another heart attack we can get to his aid or if he needs help. I just bought my grandparents a cell phone for christmas so in case they run into trouble they can get help....Please don't penalize us....we can't afford the cost. Please don't ruin the ability for my family to stay in contact with each other. As you may know there are not as many pay phones as there used to be. I don't want to go thru the long days an nights of going down to Bellin Hospital in Green Bay again.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Michael Jensen
